**COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE**

Mail Stop Issue Fee  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

This paper is being provided in response to the Notice of Allowance dated January 11, 2010, received for the above-captioned application and accompanies herewith payment of the issue fee and submission of Form PTOL-85.

Applicants note a typographical error in the Reasons for Allowance provided by the Examiner which Applicants wish to correct for clarity of the record. The last two sentences in the paragraph beginning on page 3, line 6 of the Notice of Allowability should be corrected to read as follows (correction indicated in bold, italicized font):

However, even if Sakaguchi's or Grant's valves were modified to include a manual-shut off valve such as Borlund's, the shut-off valve would ***not*** be capable of interrupting the flow from the gas cylinder to the cavity. Such a modification to allow such capability would require significant structure change to Sakaguchi's or Grant's valves and would not be an obvious modification.

Although we do not believe that any fees are due in connection with this submission, the Commissioner is authorized to credit any overpayment or charge any deficiencies to/from our **Deposit Account No. 503596**.

Should there be any questions after reviewing this paper, the Examiner is invited to contact the undersigned at 508-898-8603.

Respectfully submitted,  
MUIRHEAD AND SATURNELLI, LLC
